

HSE Policy

Samsung Heavy Industries, based on our management philosophy of human dignity, realize satisfaction of our customers, employees and local communities by continuously identifying and eliminating risk factors throughout the entire shipbuilding, offshore fabrication process from new order to product operation considering **safety, health, and environment as our top core value** for sustainable management.

01. Achieve zero serious accident bearing in mind safety is our No. 1 value in management.
02. Comply with laws and principles to prevent incidents through continuous monitoring and corrective measures.
03. Analyze risk factors and provide human, financial and technical support to the relevant department.
04. Grant all employees the right to pause at work so they can request improvements anytime.
05. Actively support our subcontractors to establish HSE management systems through win-win cooperation.
06. Enhancing the quality of life for all employees by fostering a healthy work environment.
07. Do our best to develop green products, use sustainable energy and reduce environment pollutants.
08. Actively review improvement requests from stakeholders through disclosure of our HSE management system.
